MISSOURI DEPARTMENT OF CORRECTIONS

INSTITUTIONAL ADMISSION AND RELEASE REPORT

FOR FISCAL YEAR 1991

Kenneth L. Hartke, Director
Planning, Research and Evaluation Unit
Office of the Director

MISSOURI DEPARTMENT OF CORRECTIONS
FISCAL YEAR REPORT OF ADMISSIONS AND RELEASES

INTRODUCTION

This report shows basic statistical information on inmates received or released from the the Department of Corrections during the fiscal year. There are several major sections to the report:

- I. Introduction
- II. Net Growth in Institution Population
- III. New Admissions
 - A. Female Admissions
 - B. Male Admissions
 - C. Total Admissions
- IV. Returning Parole or Conditional Release Violators
- V. Inmate Releases
- VI. Escape Returns and Other Returns to Prison

Each section of the report includes a number of statistical displays of information on the subject group for that section. Statistics include aggregate data on race, ethnic origin, commitment age, commitment grade, marital status, religion, birth location, military service, admission/release type, violent nature of the offense, most serious offense on file, sentencing county, sentence length, number of sentences and number of known prior prison commitments. In most cases, summary statistics are provided which may include average commitment age, average sentence length, average number of sentences, and intelligence test scores.

CAUTION

It should be understood that much of the information included in this report involving admission characteristics of offenders is "self reported" information from inmates and, as such, it may include some imperfections due to deliberate attempts to influence admission or assignment decisions. Unlike previous reports of admission data, this report covers inmates received during a specific fiscal year rather than those assigned to permanent housing during a specific month. Since this report deals with newly admitted inmates, there will be instances where some information is missing at the time the report is released due to the time required to process a new inmate at the Diagnostic Center. Missing data is usually represented by a period (.) in the data display.

Planning Research and Evaluation Unit

DEFINITIONS

Definitions of the basic data elements included in this report are largely based on the data element definitions incorporated in the department's Offender Management Information System (OMIS). While many are self explanatory, the following list of definitions may be helpful.

Racial Identity: Self reported race of the offender.

Hispanic Origin: Self reported ethnic designation.

Commitment Age: Offender's age at the time of admission for this prison term.

Commitment Grade: Self reported highest school grade achieved.

Marital Status: Offenders known marital status.

Religious Preference: Self reported religion.

State Of Birth: Whether the offender was born in Missouri or other state.

Military Service Branch: Self reported military service.

Violent Nature of Offense: whether the offense was violent or nonviolent.

Most Serious Offense: Single most serious offense for the offender.

Sentencing County: Major metropolitan and urban contributing counties are listed only.

Most Serious Sentence Length: The sentence given for the single most serious offense (given in YYYYMM format where Y = year and M = month. For example, 10000 = 100 years and 1506 = 15 years and 6 months. 99999 = Life. 88888 = interstate compact sentence.)

Number of Sentences: The number of separate sentenced offenses for the inmate.

Number of Prior Prison Commitments: The known number of prior prison terms served by the inmate.
